# FABTEK PRODUCT PROTECTION PLAN

## TIMBERKING Forwarders

---

Exclusively for TIMBERKING Models TK434, TK434L, TK436, TK456 and TK458 Forwarders, Fabtek Corp. (FABTEK), provides the following warranty subject to all of the terms and conditions stated in this Product Protection Plan.

### 1 Year/1000 Hour Total Machine Coverage

The Product Protection Plan covers all parts (except as noted below) for a period of 12 months or 1000 hours, whichever occurs first, from the validation start date. If any part is found, under normal use and service, to be defective in factory materials or workmanship, FABTEK will, at its sole option, repair or replace such part and will pay labor charges as specified in the Product Protection Plan Handbook at an authorized TIMBERKING dealer.

The validation start date is the date the original purchaser takes ownership of the machine or one year from the date of shipment from the factory, whichever occurs first.

This Product Protection Plan does not cover the following parts not manufactured by FABTEK: engines, batteries, tires, filters, hydraulic oil, other fluids or chemicals, lights, starting devices, alternators, and standard hardware (including but not limited to nuts and bolts), accessories and vendor supplied attachments (even if such attachments are installed by FABTEK at its factory). Such parts may be covered by warranties of the manufacturers of such parts. Parts that are not proven to the satisfaction of FABTEK to be defective in factory materials or workmanship will not be covered. This Product Protection Plan does not cover machine transportation costs or freight charges on replacement parts. This Product Protection Plan does not cover attachments; there is a separate protection plan for such attachments.

This Product Protection Plan does not apply to scheduled maintenance service, or to normal replacement of service and wear items (including but not limited to engine tune-ups, hydraulic pressure checks or adjustments, and oil and filter changes, pins, and bushings).

The obligation of FABTEK to honor claims under this Protection Plan is subject to the following conditions: The machine installation must be approved by an authorized TIMBERKING dealer. The owner must give timely notification of a claim to an authorized TIMBERKING dealer and make the product available for repair. This Product Protection Plan shall be invalid if the machine installation is disapproved by Factory Service Personnel. The machine MUST be maintained according to the **Scheduled/Periodic Maintenance Services** as outlined in the Operator's Manual utilizing genuine FABTEK authorized parts. Failure to use authorized parts may impair the safety, performance and durability of the machine and will void this Protection Plan. FABTEK reserves the right to deny reimbursement for any part that is not TIMBERKING authorized replacement part unless FABTEK factory approval is obtained first. Equipment must have been used only for its intended purpose, appropriate applications, and must not have been altered, mistreated, or reworked in any manner whatsoever unless FABTEK'S Engineering Department has given prior written approval to an Authorized TIMBERKING Dealer. This Product Protection Plan does not cover any part that has been abused, misused, contaminated or operated under conditions other than those specified by FABTEK. Any operation above rated and published capacity or improper application or use will void this Product Protection Plan. .

The Protection Plan covers only new equipment shipped from FABTEK'S factory and sold to the original purchaser of the machine. It is transferable to sequential owners providing the following two (2) conditions are met and documented by an authorized TIMBERKING dealer.

1. The original FABTEK warranty has not yet expired; and
2. A transfer fee has been paid to FABTEK accompanied by photographs of the machine and a complete Delivery Inspection Checklist stating the new owner's name, address, accurate machine hours and the condition of the machine.

**There are no other obligations or liabilities on the part of FABTEK except for this written Product Protection Plan. THERE ARE NO OTHER WARRANTIES, EXPRESS OR IMPLIED; THERE IS NO IMPLIED WARRANTY OF MERCHANTABILITY AND NO IMPLIED WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE. No one, including any dealer, is authorized to assume for or on behalf of FABTEK any different or additional obligations in connection with FABTEK'S products. FABTEK'S liability under this Product Protection Plan is limited exclusively to the remedies stated in this Product Protection Plan and is subject to all the conditions set forth herein. FABTEK assumes no other liabilities, express or implied, arising in contract, tort or otherwise. FABTEK expressly disclaims any liability for lost time, commercial loss or any other incidental or consequential damages of any kind.**

Effective Date: January, 1, 2004
